

Solar Power Generation

MODULE

About the Skill Module

This skill module covers the following topics:

- Concentrated Solar Energy
- Concentrated Tower
- Parabolic Trough
- Stirling Engine
- Photovoltaics

See demo online learning module

Target Audience

This course is useful for senior and middle management and for anyone involved in the integration of low carbon power generation technologies into existing and future infrastructure.

You Will Learn

Participants will learn how to:

- Understand the application and development of solar thermal power plants
- Understand the development of Photovoltaic (PV) technology over time
- Be able to discuss the practical usage of Solar Power technologies in industrial and domestic application
